

## **METHOD AND SYSTEM FOR MANAGEMENT OF THE PROCESSING OF AGRICULTURAL PRODUCTS**

### **Abstract of the Disclosure**

A raw material is stored in a storage container. The stored raw material is physically processed in the storage container to obtain a processed material based on the raw material. Link data is recorded for associating the raw material with the processed material across any transformation between the raw material and the processed material. A graphical user interface is provided to facilitate at least one of entry, storage, retrieval, and data processing of the recorded link data for management of the storage containers.
